FOR IMMEDIATE RELEASE

### **Door Engineering & Manufacturing Places in Professional Door Dealer Magazine's 2010 Best of Business Poll**

PHOENIX – November 24, 2010 – *Professional Door Dealer* (PDD) magazine, the trusted and independent source of information for the garage door and access control industry, is pleased to announce that **Door Engineering & Manufacturing** has placed in the top five winners in the industry's only Best of Business dealers' choice poll, in the category of **Best High-Speed Doors**.

#### **About Door Engineering & Manufacturing**

Door Engineering and Manufacturing has been offering industrial, commercial, fire rated, aviation and specialty door solutions for over 40 years. Whether it's a standard door or a unique system, our technical sales team, skilled designers and certified installers will ensure quality from illustration to installation.

"We are very excited to be able to recognize all of our winners," said Troy Bix, Group Publisher for PDD. "More than 5,000 votes were received from industry professionals. The increase in votes from the launch of the poll last year surpassed our expectations, and we are just overjoyed at the overwhelming response from our readers."

"The manufacturers and distributors in this industry make their relationships with their customers such a priority," added Lauren Vasquez, Editor for PDD. "It's hard work, and this poll shows them that it's noticed and appreciated by dealers, who voted for them in categories including Best Customer Service, Best Residential Operators and Best Commercial Doors, to name just a few."

#### **About the Poll**

Industry professionals were invited to vote at [www.professionaldoordealer.com/vote](http://www.professionaldoordealer.com/vote). The poll was open for three months, and voters chose from more than 20 categories, picking their top three company choices in each. The top five winners in each category were highlighted in a special December issue of PDD.

#### **About PDD**
