For Immediate Release

Precision Hinges Boast Longer Life

New Precision Hinges from Door Engineering and Manufacturing are designed for higher load capacities and longer life. They feature fully concealed dual thrust and needle bearings for smoother motion under larger loads. Non-removable, hardened steel hinge pins ensure a safe and secure fit. All Precision Hinges are constructed with dual shear points for increased strength. New Precision Hinges are available on Door Engineering four-fold and swing door systems for commercial, industrial, security and custom applications.
